PARIMA Unveils 2026 Events Calendar to Strengthen Risk Leadership and Collaboration Across Asia-Pacific

11 February 2026 — The Pan-Asia Risk and Insurance Management Association (PARIMA) has officially revealed its 2026 calendar of events, bringing together risk and insurance professionals across Asia-Pacific through a series of masterclasses and conferences designed to address the evolving global risk landscape.

Aligned with **PARIMA's 2026 theme, *The New Risk Order***, the year's initiatives reflect a rapidly shifting risk environment shaped by geopolitical tensions, technological acceleration, climate pressures and societal transformation. As traditional frameworks struggle to keep pace, risk leaders are called to rethink how risks are prioritised, interpreted and managed. This emerging "new order" highlights Asia's growing role in shaping risk perspectives and invites professionals to lead with clarity, adapt with confidence, and help define the future of the profession.
